Education

University of California, Berkeley, Extension Aug 2026–Present
Visiting Student, Berkeley Global Access Program
Berkeley, CA

Huazhong University of Science and Technology Sep 2023–Present
B.Eng. Candidate in Electronic Information and Communications, Advanced Mathematics and Physics Track
Wuhan, China
GPA: 4.58/5.00 Average: 91.5/100

Publications

-
- Cui, M.*, Liu, R.*, **Zou, D.***, et al. *GlobalForge: Towards Robust AI-Generated Image Detection*. Submitted to ICLR 2027.
 - Cui, M.*, Qin, Z.*, Wang, Z., Liu, R., **Zou, D.**, et al. *Rethinking the Readout: Unlocking Video Backbones for AI-Generated Video Detection*. **NeurIPS 2026, accepted (Poster)**.

* Equal contribution.

Research Experience

Westlake University, ENCODE Lab Jun 2026–Present
Visiting Research Intern Advisor: Prof. Huan Wang
Hangzhou, China

- **Ongoing project:** Investigating whether a vision model learns better representations when it is given the freedom to actively decide where to look next, rather than being fed a fixed set of crops.
- Implemented the training framework (DINO-style self-distillation on a block-causal Vision Transformer with an acquisition head), and am evaluating the learned representations on ImageNet with k-NN, linear, and MLP probes.

AI-Generated Image and Video Detection Apr 2026–Aug 2026
Research Contributor, HUST
Wuhan, China

- Collaborated with project partners and UCAS researchers to evaluate methods for detecting AI-generated images and videos.
- Implemented and evaluated new detection methods, and helped write the manuscripts and create figures.

RoboMaster Global Robotics Competition – Vision System

2023–2025

Algorithm Member, Langya Algorithm Group, HUST

Wuhan, China

- Developed and tuned a real-time auto-aiming computer-vision pipeline in C++ for competition deployment.
- Collected training data, trained and quantized a YOLO11-s model, and deployed it on an Intel NUC using OpenVINO to accelerate inference.

Honors

- National Scholarship, 2024, 2025, and 2026.
- Outstanding Student Scholarship, 2024, 2025, and 2026.

Awards

- Chinese Mathematical Olympiad (CMO), Silver Medal, 2023.
- First Prize, Datang Cup National Final Communication Competition; ranked third nationally, 2025.
- Second Prizes, RoboMaster Series Competitions, 2025.
- Second Prize, Embedded Systems Design Competition, 2025.

Research Interests

Representation Learning; Learning and Reasoning in Neural Networks; Active Perception and Embodied Intelligence; Computer Vision

Skills

Programming: C, C++, Python, LaTeX.

Machine Learning and Vision: PyTorch, OpenCV.

Systems and Robotics: Embedded systems, ROS2.

Languages: Mandarin Chinese; English (IELTS 7.0).
